INSTRUCTIONS

1. Use scissors to cut the NCR paper pattern down so it's easier to transfer onto the piece.
2. Place the NCR paper pattern on top of the plate and firmly trace over the lines using a ballpoint pen. You don't need to trace the letters and leaves now; we will trace them later.
3. Use a liner brush to apply a thin line of Banana Boat to the edge of the tin. If helpful, use the photo as a reference.
4. Use a liner brush to fill in the fish with three coats of Sea Mist.
5. Paint the tin lid with three generous coats of Red Hot.
6. Next, fill in the roll in the lid with three generous coats of Pumpkin Pie.
7. Paint the space around the fish with three generous coats of Blush.
8. Apply the scales on the fish using a liner brush and Deep Sea, then the line for the face on each fish with Saffire.
9. Use a liner brush to apply two coats of Gecko Green on the belly of each fish.
10. Paint the tab on the lid with three coats of Deep Sea.
11. Next, paint the space around the spiral on the rolled lid with Red Hot.
12. When the top of the plate is dry, use the NCR pattern to trace on the lettering and leaves.
13. Use a detail brush to apply the letters with three generous coats of Banana Boat.
14. Next, use a liner brush to fill in the leaves with three generous coats of Gecko Green.
15. For the stem on the leaves, as well as the shadow on the letters, use a liner brush and Saffire paint.
16. Finally, dip the handle of the detail brush into Snowflake and tap a dot on each fish for the eye. Then dip the handle into Deep Sea and put a smaller dot inside each white dot.

TIPS

- Apply three generous coats of paint in order to get solid colors.
- When using the liner brush, you can thin down the paint slightly to help the lines flow more easily.
